Truck Drums by Majetone

In September 2020 I got access to a truck body – and old removals lorry, about 40ft long and 10 to 12 feet high.

A wooden floor and aluminium construction. upon entering it sounded massive, reverberant, and amazing.

In my head I thought – this would be perfect for a drum recording!

As luck would have it, The Truck would be empty over the coming weekend, so I hatched a plan.

Drums

1970's Vintage Ludwig Vistalite Toms

13" Rack Tom

18" Floor Tom

1980 Gretsch 24" Kick

1979 Ludwig 402 Snare 14x6.5" (D1)

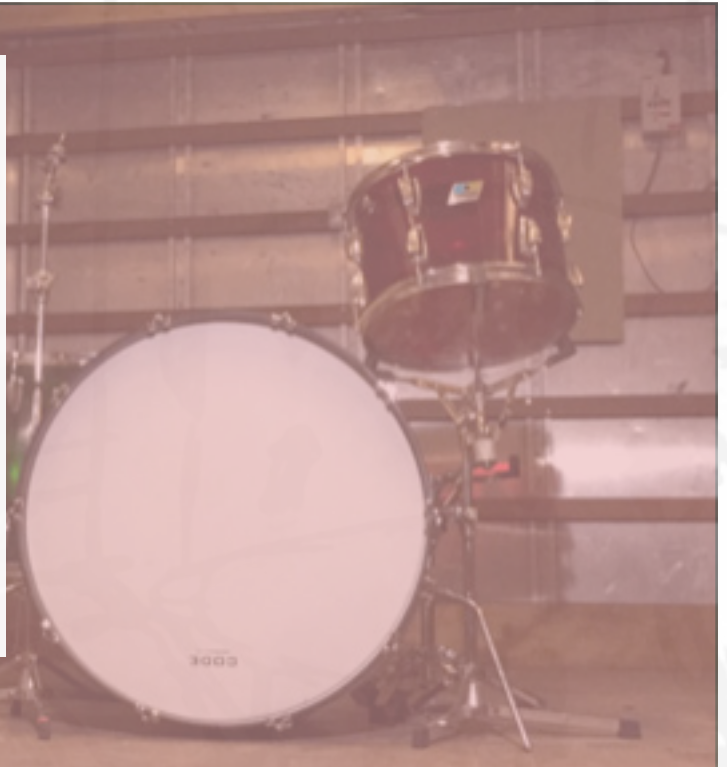

2018 Fraser Murray Shell/Sonor hardware

14x8" (E1)

2019 Majetone 12x5" (F1)

16" Zildjian Hihats

21" Collingwood Crash/Ride cymbal.

Recording

Overhead – Extinct Audio Valkyr Stereo Ribbon

Kick – Aston Origin

Snare Shure SM57 (MJ Mod)

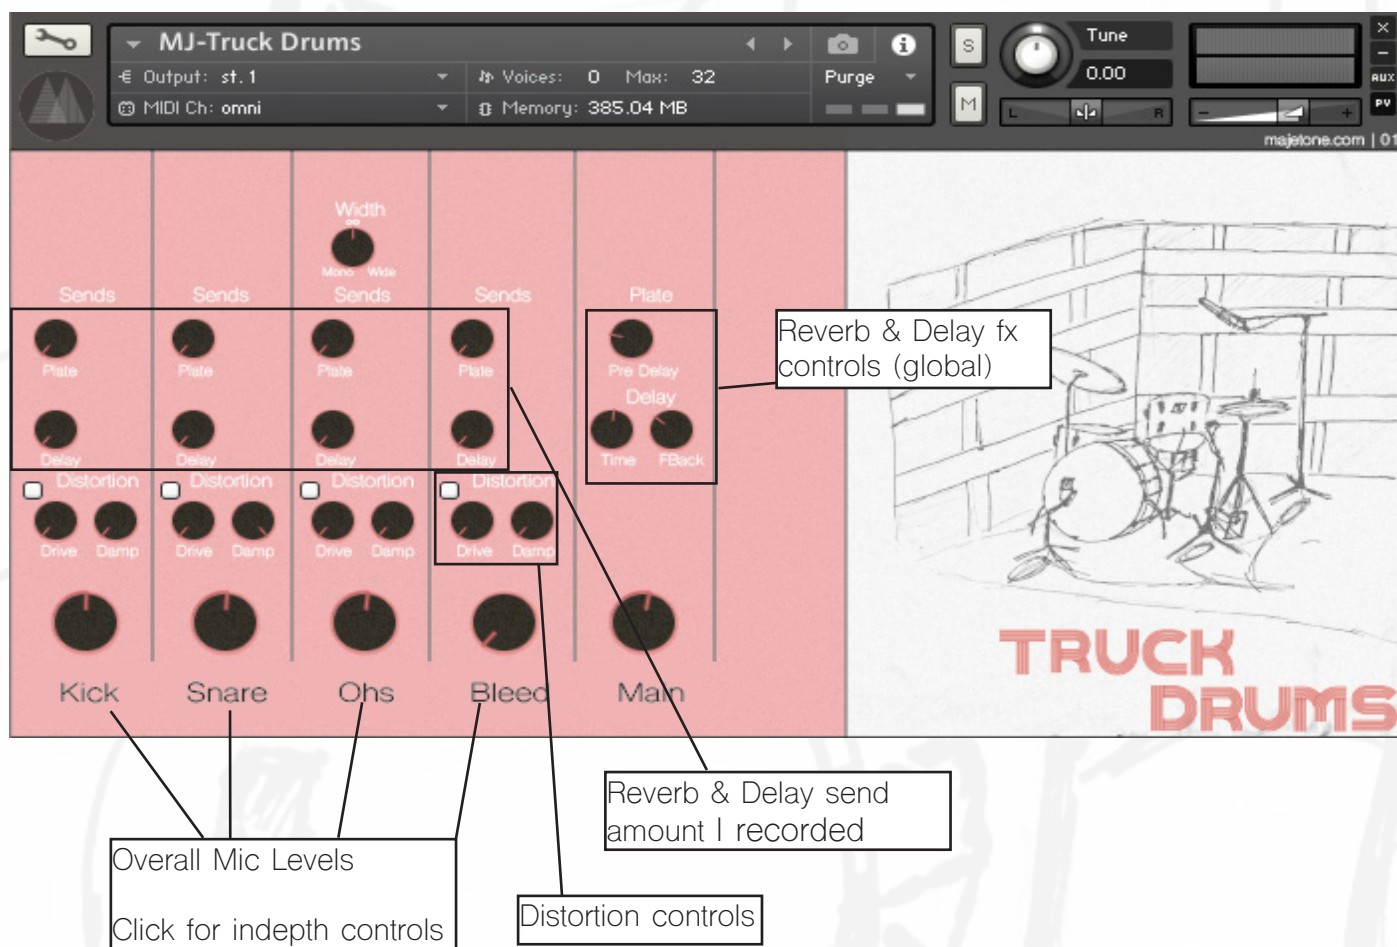

Audient id44 Preamps – Processed and mixed through Neve, Hairball and Capi hardware.

I recorded overnight so as not to get any background noise on the recordings. The truck had zero insulation from the outside.

The first night rain stopped the recording, the second night a nearby sleeping truck driver got very angry about the noise. The third night I was able to record a selection of 70+ Loops and Samples.

I wanted the setup to be simple, so I used my audient 4 channel interface. Extinct stereo ribbon as the overheads and a kick and snare mic.

Truck Drums v1 was released in December 2021 – Majetone's first library. In post production I decided to print the samples, as time has gone on I wished to have the ability to change the mix on the instrument, with 4 microphones you're somewhat limited anyway but I decided to re-edit and re-build the instrument with this in mind. I am happy to announce Version 2. Also included are the bleed from the microphones for added realism

At Unity (cmd/ctrl + click on Mac/PC) this is the same mix at Version 1

Downloading Truck Drums 2

Upon purchase you will be emailed a license code. Please check your spam or junk folder.

Majetone uses Pulse Downloader for all of its downloads and updates. You will need Pulse to be able to redeem your purchase.

Step 1: Download and install Pulse at <https://pulsedownloader.com>

Step 2: Create an account within the pulse programme, using the license code redeem your instruments

Step 3: Download your sample instrument.

When and if there are updates, pulse will enable instant access.

Any problems, please email james@majetone.com

About

Majetone is James Yates. A UK based engineer, drummer and instrument builder.

Since 2008 James has been making physical and sample instruments for a variety of producers, groups and drummers.

A love of interesting sounds, and a chance encounter with an empty Truck lead James back to sample creation in 2020.

Majetone aims to make interesting and engaging samples that can provide both a pristine acoustic image of the instrument and in-depth creative sampling, going beyond the performance possibilities of the source instrumentation.

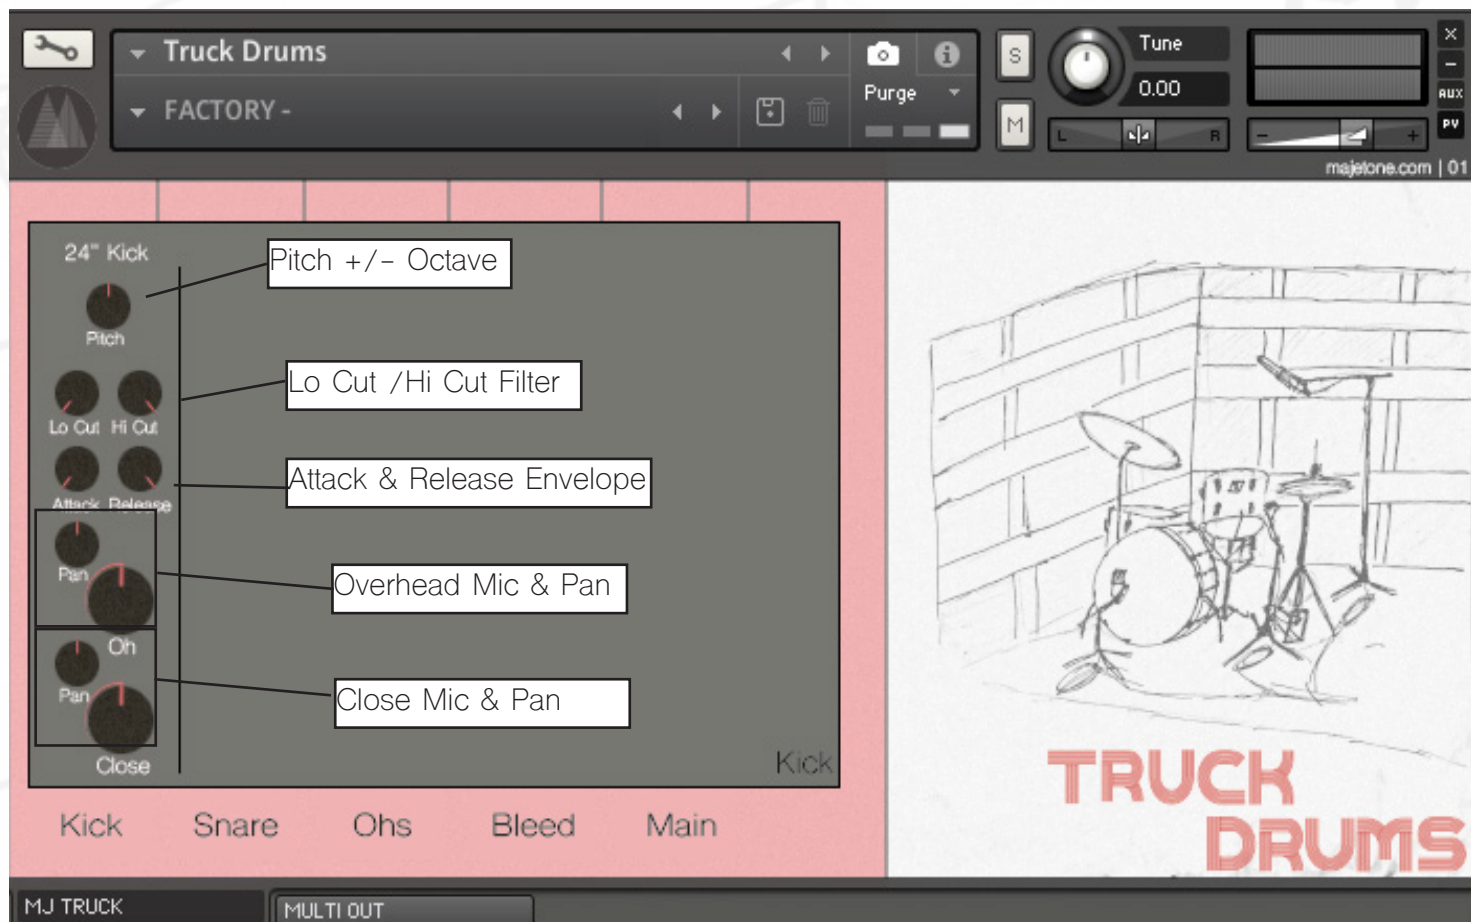

Majetone believes in being a fair and sustainable company - updates are free and we don't do sales.

Terms

Sample libraries and virtual instruments purchased from Majetone Ltd are licensed to you by Majetone Ltd. We are not selling you the source recordings. Majetone Ltd remains the owner of the original audio recordings.

By purchasing and downloading a sample library or virtual instrument from Majetone Ltd, you have a single user license to use these sounds in your own commercial or personal musical compositions without payment of any further fees or royalties.

You may not use Majetone Ltd sounds and instruments as part of a commercially released product (for example, you cannot use the sounds to make another sample library or virtual instrument). You can use them within musical contexts and productions.

This license also expressly forbids the resale, re-licensing or other distribution of these sample libraries and virtual instruments, either as they were delivered to you, or having been changed or incorporated into other sounds (for example, you cannot layer Majetone Ltd samples with others and release them as your own sample library).

This license does not permit you to resell, loan, rent or lease the content to any third party, or embed it in hardware, online, or in an app.

Majetone Ltd bears no liability for any loss or damage to the licensed sample library or virtual instrument, for the loss of working results, turnover, or profit, or for direct or indirect loss or damage suffered by you or any third party.

Majetone Ltd provides no guarantee that the licensed sample library or virtual instrument meets your requirements and purposes. It is your responsibility to check compatibility with your software and hardware prior to purchase.

Because Majetone Ltd products are delivered as downloads, they cannot be returned. Therefore, refunds are only given at the discretion of Majetone Ltd. Your statutory rights are unaffected.

By purchasing a product from Majetone Ltd, you are agreeing to abide by this license agreement.
