Introduction

New Loops presents Elektro Synth 1.5 for Spire. 64 updated presets using the new preset browser. Elektro Synth 1.5 pushes Spire to the fringes of reality with huge ethereal pads, evolving soundscapes, wide cutting leads, deep basses, twinkly keys, punchy plucks, and synths from a distant future.

Elektro Synth 1.5 features seven categories of preset including: Arp, Bass, Keys, Lead, Pad, Pluck, and Synth. Each preset is level matched, fully tagged with description, and has the mod wheel assigned. There are at least two macros already mapped and many presets also use aftertouch and velocity.

These Spire presets are suitable for any style of electronic music including, electro, synthwave, retrowave, electronica, future retro, cinematic, film score, sci-fi, as well as modern genres like drum and bass, techno, and many more.

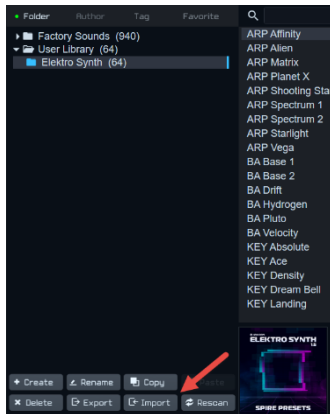

Usage Tip: All presets have the mod wheel assigned and many also use aftertouch to control various parameters like the filter, LFO speed, timbre, or adding vibrato. Test the Mod Wheel and Aftertouch on each preset.

Installation

Installing this sound pack is easy. Simply download the zip file and unpack. You can then move the entire folder to your preferred place on your hard disk. You will need to locate the “Elektro Synth.swzip” file in the next step.

Add Presets to Spire

Open Spire (1.5 or later) and click the “Library” button or preset name to open the preset browser. Click on “Import” then locate and select the file called “Elektro Synth.swzip”. Once imported, the bank and presets will show in the browser. See the Spire user guide for more details on using presets.

Requires Reveal Sound Spire VST version 1.5 or later.

Please keep a backup copy of your sound pack.

IMPORTANT: We have updated and tweaked these presets. This update overwrites any previous versions. You must backup any projects and work using these presets. New loops will not be liable for any losses. You update at your own risk.

New Loops

New Loops is an English sound design label publishing audio sample packs and synthesiser presets in the pro audio market. With a focus on quality and usability, New Loops sounds are used by DJs, producers, music studios, and composers all over the world.
