

The Discovery Blockbuster Deluxe soundset contains 125 presets and 35 multis and 69 soundsources and is part of the Discovery Series with 6 scheduled releases over the year.

The sounds in the soundset are inspired by the scores of Hildur Guðnadóttir Thomas Newman, Ramin Djawadi, Hans Zimmer and many more. The sounds are aimed to provide you with a underscoring toolkit and that can be layered easily with other sample libraries.

Installation:

Unzip the DiscoveryBlockbusterDeluxe.zip and open Omnisphere 2. Under the “Utility” button click “Install .omnisphere” and select the Discovery – BlockbusterDeluxe.omnisphere file.. **Please note this version requires Omnisphere 2.6 and Keyscape to be used.**

Usage:

The presets are modulated via the modwheel, aftertouch, pitchwheel and sometimes via CC2. In the descriptions of the presets you can find what each modulator is controlling. Sounds often start fairly simple and via the controllers all kinds of elements are added to enhance the sounds.

All the multis are in STACK mode and for most of the multis I kept it limited to 3 or 4 layers to not overwork the CPU.

License Agreement:

All licenses are single-user licenses. The contents of this soundset is licensed and not sold to you. Ownership remains with Triple Spiral Audio. All rights of the producer and the owner of the work are reserved. Unauthorised duplication of any download is a violation of applicable laws.

You may not distribute, share, sublicense, lend, lease or otherwise make the soundset content available to any third party.

You may use the content of this soundset in your own productions. The included soundsources cannot be used to create new commercial preset releases.

Installing these products constitutes an agreement to the terms of this license.
