

The Discovery Crime Deluxe soundset contains 126 presets and 35 multis and 124 soundsources and is part of the Discovery Series with 6 scheduled releases over the year.

The sounds in the soundset are filled with suspense and tension, often with (subtle) pulses that can be added/removed via controllers. The inspiration comes from shows like The Bridge, Person of Interest, The Killing, The Americans, Bodyguard, Blacklist and many more.

Installation:

Unzip the DiscoveryCrimeDeluxe.zip and open Omnisphere 2. Under the “Utility” button click “Install .omnisphere” and select the Discovery – Crime Deluxe.omnisphere file.. **Please note this version requires Omnisphere 2.5 + Keyscape to be used.**

Usage:

The presets are modulated via the modwheel, aftertouch, pitchwheel and CC2. In the descriptions of the presets you can find what each modulator is controlling. Sounds often start fairly simple and via the controllers all kinds of elements are added to enhance the sounds.

All the extra Deluxe presets are in the Keyboard folder

All the multis are in STACK mode and for most of the multis I kept it limited to 3 or 4 layers to not overwork the CPU. **The extra Deluxe multis have KS behind the name.**
