About Trinity:

Trinity is new soundset for Omnisphere 2 with 210 presets and 100 multis. The Trinity soundset is about the Sun (light ambient sounds), Moon (dark, cinematic sounds) and the Earth (mellow + moving sounds)

Inspiration has been found in the works of Ramin Djawadi, Gareth Coker, Hans Zimmer, Olafur Arnalds, Aphex Twin and many more.

The presets are created in groups of three, with an A, B and C version. These 3 sounds together are grouped in the multi LIVE mode where you can “keyswitch” between via midi or program change or combine together.

There are in total 210 presets which are grouped in 70 multis in LIVE mode. There are also an additional 30 STACKED multis where sounds are being combined.

The soundset comes with 77 soundsources and is 440 MB in size.
